

# BRIGHTWELL

## BEHAVIORAL HEALTH

### OUR MISSION & VALUES

The dedicated, caring staff of Brightwell Behavioral Health delivers patient and family centered care to the senior population with a primary psychiatric diagnosis. We provide comprehensive, individualized care to our patients, according to their psychological and physical needs, contributing to optimal patient outcomes.

Understanding that environment plays a significant role in our patient's progress, our inpatient hospital is specifically designed to provide a safe, comfortable atmosphere for effective treatment of seniors. Each patient receives an individualized plan of care that is developed with the full participation of our multidisciplinary team.

We offer specialized care for patients with conditions that include:

- Anxiety
- Bipolar Disorder
- Depression
- Mood Disorder
- Psychosis
- Self-Harm
- DSM-5 Diagnosis

### OUR REFERRAL PROCESS
